

## Therma-Tru adds Shaker styles with flush-glazed glass to Fiber-Classic line

[MAUMEE, OHIO, January 7, 2021–] For the first time ever, Therma-Tru introduces EnLiten flush-glazed privacy and textured glass to the Fiber-Classic Mahogany Collection of doors and sidelites in on-trend Shaker-style options.

Rooted in classic Americana with recognizable ties to Craftsman design, Shaker-style doors are now available in a rich Mahogany grain. Squared recessed panels give a nod to the door's Shaker roots while creating a clean, casual aesthetic. The simple design offers a transitional update to this historic Shaker style with wood-grained doors and sidelites that complement a wide range of decorative and architectural elements.

“Shaker-style elements and warm wood tones remain popular among homeowners,” said Mark Ayers, senior vice president of marketing and product development for Therma-Tru. “We’re excited to offer these on-trend options in our Fiber-Classic Mahogany Collection, and the addition of flush-glazed glass provides an added touch of beauty and durability.”

Fiber-Classic doors set the standard for beauty, quality and performance at an excellent value, and are designed for long-lasting energy efficiency, durability and security.
